Description	Croma White has a sturdy quality and is a good filler in bouquets. The petals (flower leaves) are firm, which is advantageous when transporting. Croma has a medium flower, compact but full. It opens fully, which makes it look like a rose and stay fresher for longer. The buds sit at the top of the growth. The stem is solid and firm so that it almost has the feel of 'chrome'. The robust leaf is a blue-green.
